

## SUMMARY

Results-driven B.Tech student in Computer Science with expertise in HTML, CSS, and JavaScript. Proficient in React, Redux Toolkit, and Tailwind CSS, showcasing a solid foundation in front-end technologies. Demonstrated ability to create responsive, dynamic web applications with clean UI designs. Eager to leverage technical skills and contribute as a dedicated Web Developer. Active participant in open-source projects, with a commitment to staying updated on industry trends. A detail-oriented and collaborative team player seeking opportunities to deliver high-quality, user-friendly web solutions.

## SKILLS

- HTML
- CSS
- JavaScript
- React.js
- Redux Toolkit
- Tailwind CSS
- Git
- Attention to detail

## PROJECTS

### Portfolio Website

LINK:-<https://github.com/Tajamul-Hassan112/PERSONAL-PORTFOLIO>

- Developed a responsive personal portfolio using HTML, CSS, and JavaScript.
- Implemented interactive features for a seamless user experience, including smooth navigation and dynamic content loading.
- Incorporated a projects section to highlight key projects, offering details on technologies used, project goals, and outcomes.
- Applied modern UI/UX principles to create a visually appealing and user-friendly design, enhancing overall professionalism.

### Netflix Clone

LINK:-<https://github.com/Tajamul-Hassan112/Netflix-Clone>

- Developed a Netflix clone using React, showcasing proficiency in modern front-end frameworks.
- Integrated API to fetch real-time movie data, demonstrating the ability to work with external data sources.
- Incorporated a feature where clicking on any movie provides instant access to the trailer, enhancing user engagement.
- Prioritized user interaction by creating an intuitive interface, offering a seamless experience in navigating and exploring movies.

### Ecomzy: Responsive Ecommerce Platform

LINK:-<https://github.com/Tajamul-Hassan112/ECOMZY-PROJECT>

- Developed a responsive ecommerce website using Redux and Tailwind CSS, demonstrating expertise in state management and styling. Integrated API for real-time product data, showcasing the ability to interact with external data sources.
- Incorporated a dynamic shopping cart feature, allowing users to add and remove items, enhancing the overall user experience.
- Implemented Redux for state management, ensuring a scalable and organized approach to handling application data.

## EDUCATION

Bachelor Of Technology From SSM College Of Engineering

## CERTIFICATIONS

### WEB Development

Cetpa infotech . 2022-2023

### Core Java

Internshala Trainings . 2022-2022

## EXTRACURRICULAR ACTIVITIES

- Represented Jammu And Kashmir in cricket at the national level, showcasing leadership, teamwork, and dedication to excellence
- Engaged in online mentorship programs, providing guidance and support to aspiring developers in the field of web development
